Printing Inks

## Zipset 7 Sheetfed Ink System

Zipset 7 series was designed for high-quality, multi-color, offset print production. Its high-strength pigments (+6%) provide strong color density and excellent print mileage. Duct fresh characteristics offer superior work flexibility and reduced production downtime. Its rapid setting and drying capability allow for quick work and turn and post processes. Exceptional ink trapping characteristics offer quick and accurate color make ready, along with remarkably high gloss levels.

### Product Characteristics

- High gloss properties
- Rapid setting & drying
- Extremely sharp reproduction
- Vegetable based system
- Excellent print mileage
- Good rub resistance - PTFE
- Wide operating latitude
- High speeds stability
- Anti-skinning - duct fresh
- 1 Kg can (2.2 lb)
- Paper compatible - Coated, Uncoated, Matte, Board, Recycle
- Compatible with UV coating, aqueous coating & overprint varnish
- Post processes - foil, embossing, laser safe, heat seal
- Color sequence - Black / Cyan / Magenta / Yellow
- Tack - K 16.0, C 15.0, M 14.0, Y 12.0
- Suggested densities - K 1.75 / C 1.40 / M 1.45 / Y 1.05
